3-D Photography and Beyond by David J. Meinhardt

Put on your free 3-D glasses and joyfully enter the world of 3-D Photography and Beyond. Be amazed at 3-D Anaglyph images and stereopticon cards. Marvel as 3-D “Phantograms” mysteriously rise up from the flat page, a magical pseudo hologram, candy for your eyes that will bring out the wonder of your soul and put a smile on your face. Artist David J. Meinhardt offers you this experience and more at Rountree Gallery from July 28 – August 29. Refresh yourself at the Artist Reception on Sunday, August 1 from 1:00 – 3:00 p.m., where you can meet David, have some food and punch, see his 3-D camera rig, and talk about all things 3-D. The month-long exhibit also showcases David’s work in Infrared, whimsical and social commentary photography, as well as, multi-media installation art pieces, and maybe a poem or two.

David is a fourth generation artist. His great-grandfather did carvings and design, his grandfather was a commercial artist and designer, and his mother was a water color artist. David’s creative endeavors entail poetry, installation art, photography, and audio/video production.

Come to Rountree Gallery, you will have as much fun as your kids! Summer Hours are Wednesday – Friday & Sunday from 12:00 – 4:30 and Saturday from 10:00 – 4:30. Sneak peak 3-D poster now on the Rountree Gallery Bulletin Board!

For more information on this and other upcoming exhibits, classes, and events, visit our webpage at www.platteville.org (under City Departments) or contact Rountree Gallery at 608-348-6719 or rtgallery@yousq.net.
