

We're Glad You Asked!

“Why are the Pickleball Courts torn up and being repaired?”

When the Pickleball Courts were constructed in 2021, it was identified that corrections needed to be made to ensure the courts are up to tournament level specifications, and also to officially meet the specific requirements indicated within the construction contract. Milling options were discussed, but ultimately concluded that contractors will need to remove all of the pavement, regrade the sub-base, and then pave again.
