

The Legacy Bench Program

Honor a Legacy, Enhance a Park

The City of Platteville invites you to leave a lasting mark on our community. Through the **Legacy Bench Program**, residents can commemorate a loved one or celebrate a special milestone by funding the replacement of aged park seating with a high-quality, memorialized bench.

Why a Replacement Program?

To keep our parks beautiful and open, we focus on **renewing existing spaces**. Your donation replaces an old, weathered bench with a beautiful, durable new one in a pre-established park location.

Note: Requests for brand-new locations are generally discouraged and require a formal review process by the Parks Director and the Parks, Forestry, and Recreation Committee.

Program Details & Cost:

Total Investment: \$2,500.00

What's Included: One industrial-grade, weather resistant bench (standard City style)

- One 4"x6" Customized bronze plaque
- Professional installation by City staff
- Concrete pad (if one does not currently exist)
- A contribution toward long-term maintenance of the park system

Select a Park: (Legion, Smith, City, etc)

Consult the Parks Director: to identify an 'aged bench' currently eligible for replacement

Sign & Pay: Complete the **Legacy Donation Form** and submit the fee.

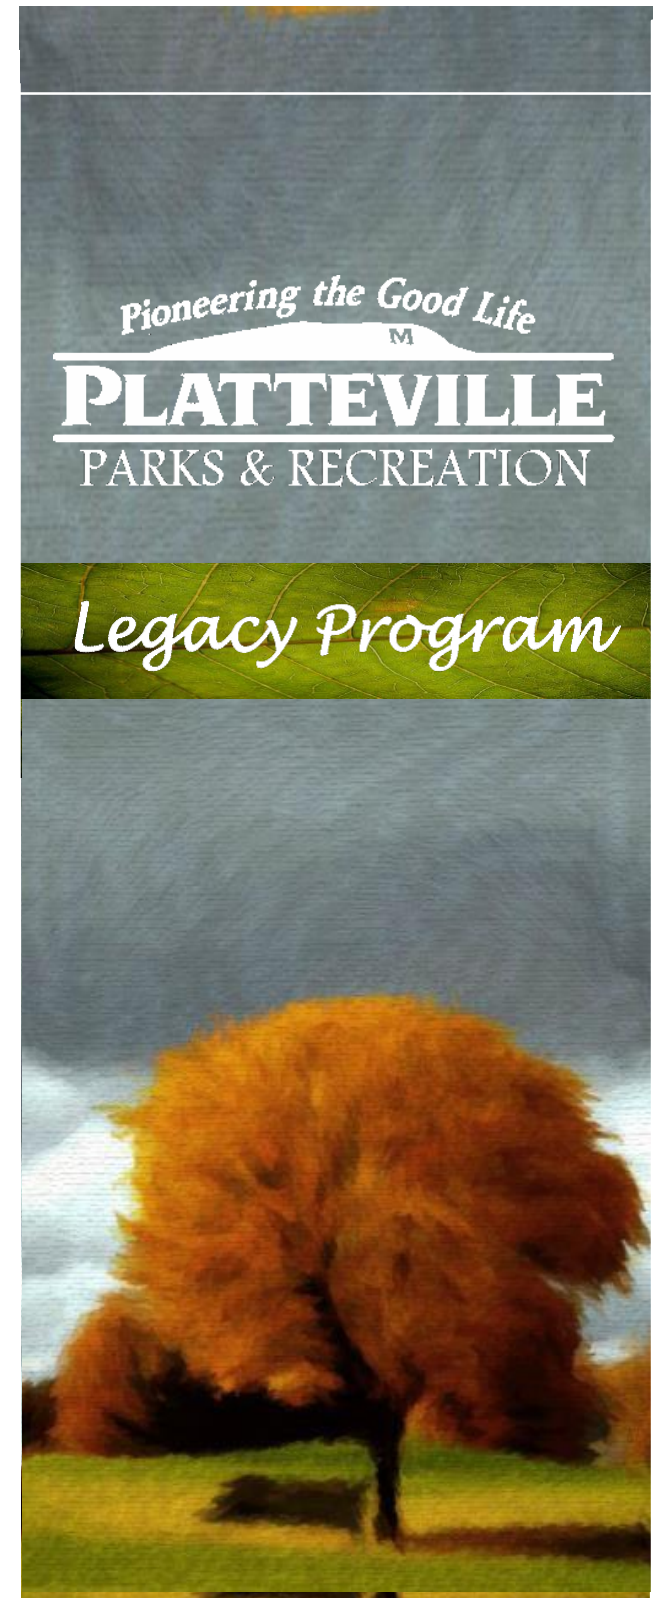

Installation: The City will order and install your bench. Installation typically occurs in the spring or the fall, weather permitting.

Terms: The bench becomes the Property of the City of Platteville.

The City provides routine maintenance and graffiti removal.

The City reserves the right to relocate the bench should Park redevelopment occur.
