To Whom It May Concern:

The Platteville School District strongly supports the Platteville Area Pickleball Association (PAPA) in adding a pickleball complex to the Platteville community.

The students and staff of our school district will benefit from this healthy and social activity. The current plans for the complex are within walking distance of our middle school and high school. Our physical education department currently teaches pickleball inside of our gyms, and this outdoor complex will provide another location for this fast growing and lifelong activity. We believe this project will be a great way to encourage our community to be active and healthy.

Sincerely,

A handwritten signature in cursive script that reads "Demetri Andrews".
