Platteville Residents

Council President Eileen Nickels

Common Council Members

Police & Fire Commissioners

City Manager Karen Kurt

Residents, Council Members, Commissioners, and City Manager Kurt,

Nationwide, 2016 saw an unprecedented number of ambush attacks on law enforcement as well as a number of highly publicized police shootings of civilians. These incidents represent the extremes on both sides of the issue of police/community relations. These incidents are not representative of the vast majority of police and civilian interactions, especially in a community like Platteville. Locally we (the Police) enjoy widespread support from our community and we strive to never take this for granted. Every day we try to earn and maintain the trust which has been placed in us. The best way for us to do this is by treating everyone with dignity and respect and serving our citizens to the absolute best of our ability.

In 2017 the Police Department will be engaging in a major overhaul and update of our Department policies and procedures. The bulk of this project will be accomplished through the use of a professional policy service (Lexipol). The annual subscription for this service is being paid jointly by TRICOR, the City's insurance agent, and EMC, the City's insurance provider. They are funding this project because they both recognize the value of having the Platteville Police Department operate with policies which are compliant with the latest Federal and State laws, case law, and with policies which are in line with the best practices in the field of law enforcement. Additionally, this project could position the Police Department well if we decide to pursue accreditation at the state or national level.

In the pages that follow you'll find information about the staff of the Platteville Police Department and the services we provide. In addition, we have included statistics related to our crime reports and the other incidents we handle locally. Please take the time to read through our Annual Report. If you have questions after reading this document, please contact me at the Platteville Police Department at 608-348-2313 or via e-mail at mckinleyd@platteville.org.

Sincerely,

Doug McKinley
Chief of Police

The Platteville Police Department has revised and updated its Mission Statement and its Department Values. This was accomplished by a group of Department employees led by Sergeant Andrea Droessler and Sergeant Kris Purkapile. The group was assisted and received input from a community member who is also on the Police & Fire Commission. The Mission Statement and Values will be used to guide the actions and priorities of the Police Department. The Goals as listed below will be reviewed mid-year and at the end of the year to gauge our progress and to determine if they are still viable priorities or if the community has other issues which require the focus of the Police Department.

Mission:

The members of the Platteville Police Department are committed to providing a high quality of life and safe community for all its members through quality police services while still upholding the rights of all.

Values:

Human Life: We believe nothing is more valuable than human life. We will defend it to the very end using the minimum amount of force necessary.

Integrity: The integrity of our department will not waiver.

Professionalism: We shall serve the community with the utmost respect.

Continuous Improvement: Through training, education and interaction with the community we will continuously improve the services we provide.

Goals:

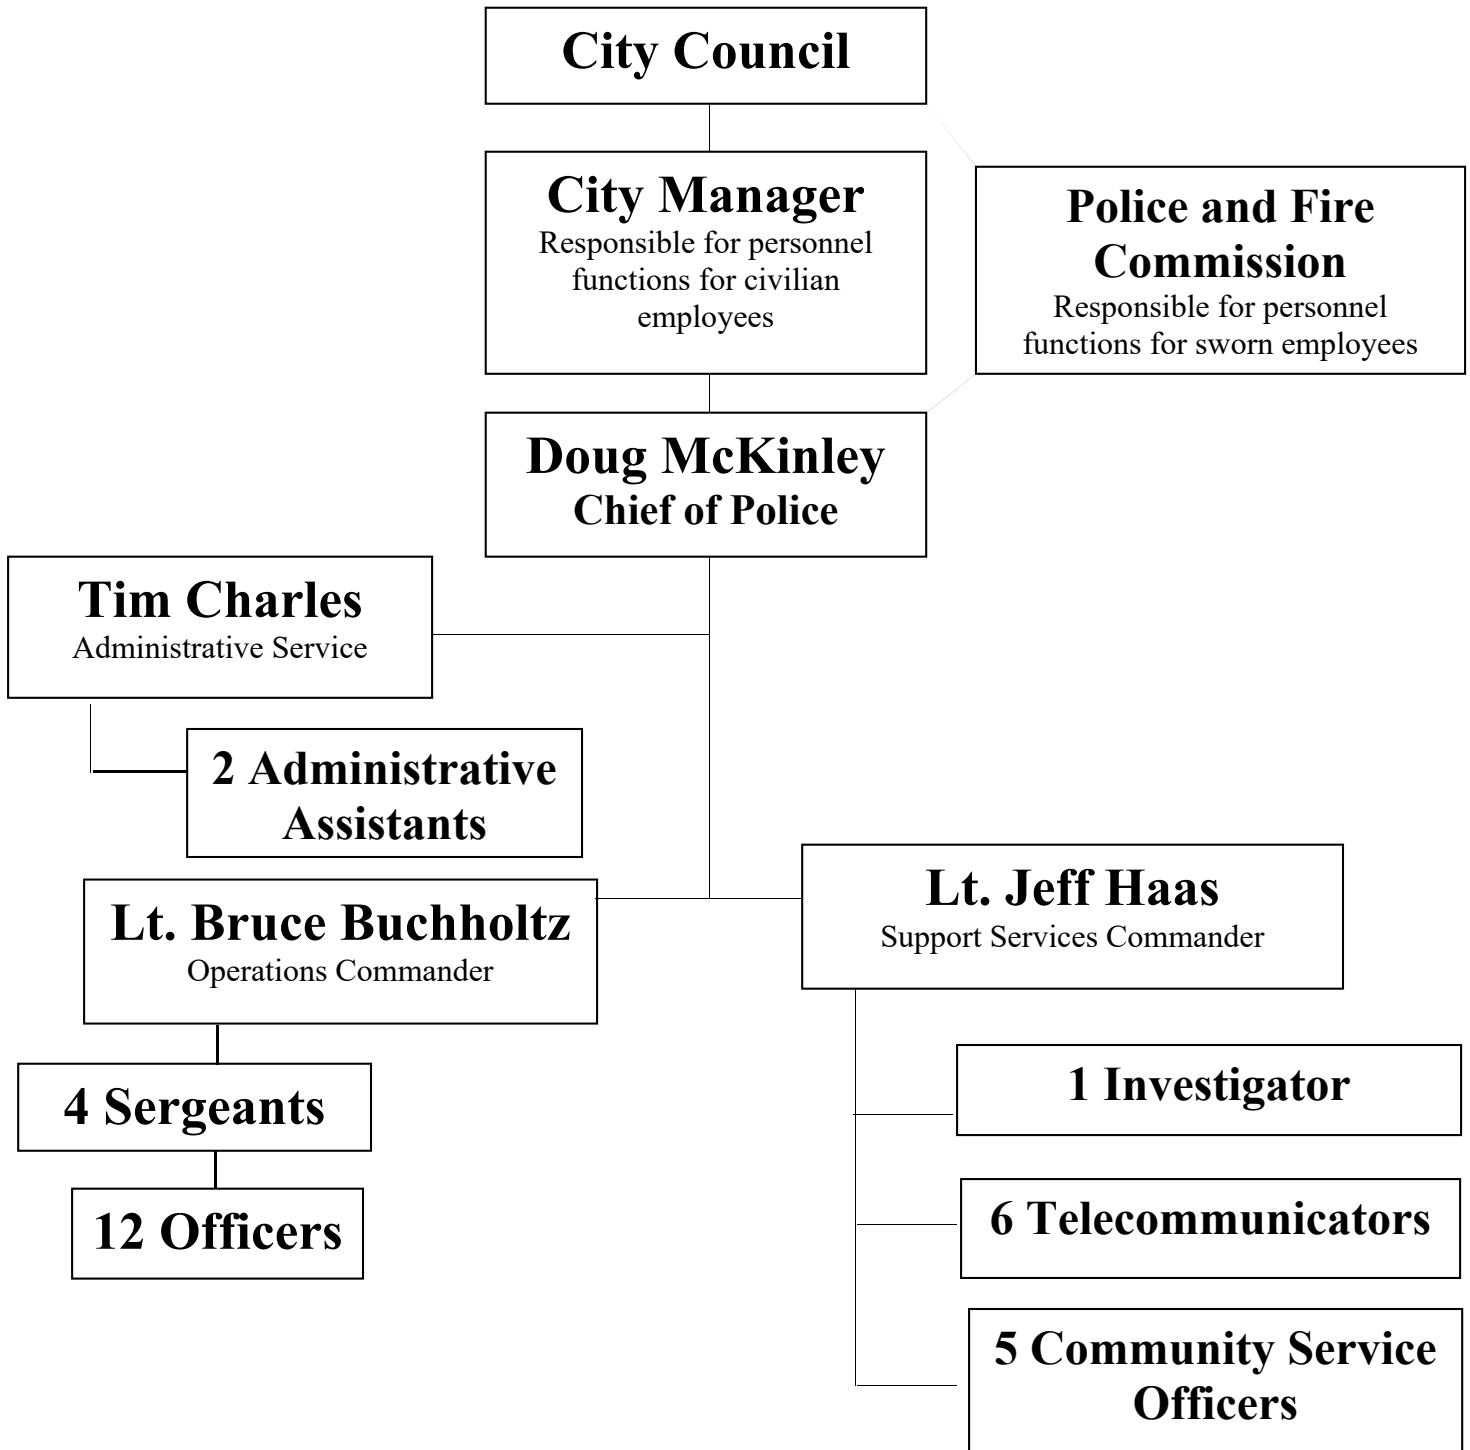

1. Improve the quality of life for community members, which will be measured by a reduction in complaints by 15% per year.

*Quality of life complaints refer to calls of nuisance noise, public intoxication, open intoxicants, littering, public urination/defecation, criminal damage to property, theft and calls for service.

2. We will be proactive in preventing crime through increased communication and education with the public. This will be measured by a reduction in reports of crime by 10% and an increase in the identification of suspects and closed investigations.

3. We will increase safety for the community, and visitors, on our roadways through education and enforcement of traffic laws. This will be measured by a 10% reduction in crashes on City streets.
